

Tech 4 Kids

Technology is best when it brings kids together

We are so grateful for every donors' generosity on Giving Hearts Day this year. We raised an incredible \$2,100. Thank you to all of our past and present donors. Your gifts help provide access to technology in children's homes that before did not.

Save the date and stay tuned for more information about Giving Hearts Day next year – February 8, 2024!

Help someone.

SCORPION®

Another huge thank you to Scorpion Technologies for their generous donation of more used laptops. With donors like Scorpion, Tech4Kids would not be able to provide kids with the technology that may not be available to them in their homes.

TEAM MEMBER SPOTLIGHT

Samantha Davidson is a Technical Program Manager at WEX, Inc. She leads program level delivery of payment processing and information management services, with technical experts across several countries. Sam resides in Fargo, spending her time with her partner, Jeremy, and his 3 children. She is a life-long Vikings fan, mediocre crafter, enjoys spending time at the lake in the summer and snowboarding in the winter.

Sam first learned about Tech4Kids by connecting with Founder and CEO, Amy Longtin, who was a guest speaker at the Women's Leadership Program through the ND Women's Business Center. There she learned about the organization's mission and was excited to be part of this non-profit, particularly after the pandemic sparked an increased need for the technology that this organization can help provide.
